OBJECTIVE:

I am Software Engineering student with a strong foundation in web development and backend technologies. I have experience working with HTML, CSS, JavaScript, Bootstrap, and Python with Django. Passionate about building efficient and responsive web applications, I am eager to apply my skills in real-world projects and continuously learn new technologies.

PROFESSIONAL SUMMARY:

As a software engineer, I have a solid foundation in computer science principles with hands-on experience in C++, object-oriented programming, and data structures. I'm proficient in designing relational databases, writing optimized SQL queries, and applying OS fundamentals like memory management and process scheduling. I follow clean code practices, use Git for version control, and work within agile frameworks. My knowledge extends to networking protocols, the OSI model, socket programming, and IT fundamentals including cybersecurity and digital trends—equipping me to tackle software challenges with a well-rounded, solution-oriented approach.

TECHNICAL SKILLS:

- Frontend: HTML, CSS, JavaScript, Bootstrap
- Backend: Python, Django
